

Which Browser Support Do You Need?

Naive Thought: Support **ALL Browsers & ALL Browser Versions**

DON'T do this!

Disadvantages: Ship too much code, pass up on some features & improvements

Analyse your market!
Who will be your users?

Internal tool/ app: Company browser might be clearly defined

Tech-savvy users: Very likely to use cutting-edge browsers & versions

Older people, non-tech-savvy audience: Likely to use older browsers
