

Bonus Lecture: Creating a REST Client with Spring

Bonus: Creating a REST Client with Spring

We previously created a CRM web app using JSP. Wouldn't it be great if we could have the CRM web app leverage the CRM REST API for data?

We cover this functionality in the following PDF document.

PDF: <http://www.luv2code.com/crm-web-app-rest-client-demo-pdf>

Also the full source code is available for download

Source Code: <http://www.luv2code.com/crm-web-app-rest-client-demo-code>

Enjoy!!!
