Class Fields (vs Properties)

ACADE MIND

(Public) Class Field

(Public) Class Property

(Public) Class Method

Product

```
class Product {
  category = 'DEFAULT';
  constructor(title) {
    this.title = title;
  }

  printInfo() {
    console.log(this.title, this.category);
  }
}
```

"Nice to know": Fields define properties for classes
